

Online Communication

Online communication is a form of communication using “secure” Web sites or e-mail applications that apply appropriate encryption technology designed to protect the transmission of confidential information. Online communication is an additional option for communication along with telephone, mail, and in-person. It is not meant to replace other forms of communication with the doctor.

Please initial below for acknowledgment and comprehension.

_____ The details of online communication have been explained to me in terms I understand.

_____ Alternative methods of communication (i.e., telephone, in-person, mail) are still available to me.

_____ I understand that all medical communications carry some level of risk. While the likelihood of risks associated with the use of online communication in a secure environment is substantially reduced, the risks are nonetheless real and very important to understand. These risks include, but are not limited to:

- It is easier for online communication to be forwarded, intercepted, or even changed without my knowledge.
- Online communication is easier to falsify than handwritten or signed hard copies. Backup copies may exist on a computer or in cyberspace, even after both of us have deleted our copies.
- I will use a secure network. I will not use standard e-mail or e-mail systems provided by employers. I understand that employers have a right to inspect and keep online communication transmitted through their system.
- Online communications become part of my medical record.

_____ I agree to take precautions to keep online communication confidential, including but not limited to the following:

- I will keep my password confidential.

- I will not store messages on an employer-provided computer.

- I will not leave messages on my screen for others to read.

- I will review my messages before sending to make sure that they are clear, and that all relevant information is included.

- I will update my contact information as soon as it changes.

_____ I understand that I am responsible for taking steps to protect myself from unauthorized use of online communication. The doctor is not responsible for breaches of confidentiality caused by an independent third party or me.

_____ I agree to follow the procedures that the doctor implements to allow him/her to verify my identity in connection with online communication. I acknowledge that failure to comply with these procedures may terminate our online communication.

_____ I understand that online communication cannot be used for emergencies or time sensitive matters.

_____ I understand that online communication cannot be used to communicate highly sensitive medical information, such as treatment for or information related to HIV/AIDS, sexually transmitted diseases, or addiction treatment (alcohol, drug dependence, etc.)
